MAIN SALMON RIVER » 5 OR 6 DAY TRIP**MRO River Craft**

» **Supply Raft** - The use of our gear boats allows us to bring a higher level of overall trip quality to our clients. Because of our system you will have more river time that includes extra stops for hiking, history, fun and games. We have chosen the best rafts available where safety, durability and fun are all at the highest levels available.

Our custom-designed gear boats carry the river kitchen, all the guest camp bags, ice chests, and other camp gear. This allows our guest boats to stay open and free of clutter for a much better ride and a more spacious feeling. Each morning the supply boat is loaded with camp gear, and one of the guides takes the boat to our next camp. The supply boat arrives well ahead of the guests. Upon your arrival at camp each day, you'll find the site completely set up, even your tent will be up, sleeping pad inflated and hot or cold drinks will be waiting. What a life!

» **Oar Raft** - Our most popular and versatile client boat for several reasons. These 16 foot "self bailing" rafts offer great comfort and plenty of excitement. Your guide can navigate this boat without the help of a paddle crew, however 2 or 4 paddlers are usually appreciated when smashing through the larger rapids. This raft is usually a 4 to 6 person craft. The oar raft offers more options when on the water for fishing, relaxing and moving from one craft to another. You will feel free to jump from the SUP boards or inflatable kayak when you feel a need for more excitement.

**Testimonial:**

We were very impressed with the overall experience. Your guides were tireless in their desire to please their clients. The food and riverside accommodations were excellent. Very nice operation.

Thanks again,

-Greg Bahny

When is the best time to go rafting?

On all Mountain River Outfitters trips, no matter what time of year, gives you the option to kick back and relax while a guide takes care of the rest. The wilderness is always keeping us on our toes, so no matter when you come be ready for anything.

Spring time rafting May through June has it's wildflowers and higher water flows for exciting whitewater and more time for hiking. Although temperatures during the day are warm the nights can be chilly and the water temperatures cool. MRO provides wetsuits and splash gear for all of the spring trips. Most of our river trips are uncrowded wilderness areas but these early trips are usually smaller groups and less busy overall.

July and August are the most predictable with hot sunny days with little humidity or bugs. The whitewater is good and the water temperatures are warm. On the Salmon River the beaches get bigger as the water flows fall.

September is uncrowded and offers some of the mildest weather, although water temps can start to fall and the nights will be a bit cooler. Lower water flows usually make for better fishing and a slower paced trip.

Tipping

One of the most commonly asked questions is about tipping. While tipping is not required, it is customary if you feel your guides have worked hard and provided you with a wonderful experience. Any amount is certainly appreciated, and a gratuity of 15 to 20% is customary for all multi-day trips. For multi-day trips on which a crew of several guides have worked, your gratuity will be shared with the whole crew.

- Sleeping pillow
- Clean type V life jacket
- Dining tables and chairs
- Advanced wilderness first aid kits

YOU SHOULD BRING

T-shirts - Cotton is great for around camp or on the boats on hot days during the warmer months of July and August. Polyester or synthetic materials like Under Armor are much better for colder weather because they are fast drying and wick moisture away from the body to keep you warm. They will protect you from the sun and the cold. We recommend synthetic shirt for every 2 or 3 days and the same for cotton t-shirts around camp.

Nylon Shorts - Nylon or similar quick dry materials are lightweight, comfortable and pack easily. More than any other piece of clothing, you will wear your shorts the most. Two or three pairs are a good idea.

Swimsuits - The summer temperatures on the river will range from 75° to 100° during the day. A swimsuit will come in handy for a quick dip, for tanning, or for soaking in the river.

Raingear - Good raingear is mandatory. We experience isolated mountain showers throughout the season especially May and June. Your raingear should have jacket with hood and pants. If the temperatures drop your raingear can be worn over fleece or sweatshirt to keep you comfortable.

Fleece jackets and pants - They designed polar fleece with rafting in mind. This fabric dries quickly and stays warm when wet. Layering your clothing (swimsuit, shorts, t-shirt, fleece or fleece lined lightweight clothing and raingear) you are assured of complete comfort no matter what mother nature brings. Substitute wool sweater if you prefer.

Shoes - You will need two pairs of shoes - a pair that can get wet and another to stay dry for around camp or hiking. On the raft your feet will be wet most of the day. Either canvas tennis shoe, river sandals with secure heel, or neoprene river booties with soles work best. At camp a dry pair of tennis shoes are perfect, hiking boots are usually not necessary and can be difficult to pack unless very lightweight.

Sun Screen - The sun will be out during most of the summer months, a waterproof sunscreen is a must with a minimum SPF rating of 15 is encouraged. You will be getting splashed and will be staying cool on the water but the reflective sun off the water and all day exposure requires you to protect yourself.

Wetsocks - Water temperatures in May and June can be chilly (50 to 60 degrees) if your feet have a tendency to get cold neoprene wetsocks are a good idea.

Towel - You will need a towel for showering and to wash up around camp. You will not need it on the raft we encourage everyone to put it in there camp bag.

Flashlight - A small lightweight flashlight is good to have for night walks to the facilities or getting ready for bed.

Hats - Beanies are good for May and June, a baseball cap or large billed hat is **essential** for those sunny summer days on the raft.

Water Bottle - We will give you a river mug for beverages we serve at camp. A large water bottle with secure lid is needed for on the raft or hiking. We will have cold water to refill on the rafts and at camp.

Sunglasses - Expensive sunglasses are great but have a tendency to go to the bottom of the river unless used with a good retainer. A cheap pair for the raft is a good idea.

Toiletry Items - Feel free to bring your favorite products and soap you use at home. Our guides will instruct you on where to use them so not to pollute the pristine waters. Pack them in a zip lock bag to protect leakage into your camp bag. We will have biodegradable hand soap available and a MRO wishy washy hand wash system for use on the river.

Fishing Gear & Tackle - Fishing equipment is provided upon request, our gear is to be shared between all the guests. We encourage those avid fishermen to bring their favorite rod and reel for Small Mouth Bass and Trout fishing. Our guides will help maintain equipment and give instruction on what to use and where. All sturgeon gear is provided. (License Required)

Camera - You will want to capture your adventure, you may keep your camera in you dry bag on the raft. A zip lock bag for added security is recommended. Expensive SLR's and video equipment should be in a waterproof hard case (pelican case).

Cash is a good idea to have for fishing licenses, misc. snacks or beverages purchased on the way to the river.

Mountain River Outfitters prides itself on our outstanding crew. If you feel the service they provide has been outstanding, you may want to leave a gratuity. The standard gratuity is 15% of trip price and can be left in cash with your guide or a personal check or credit card with our office.

We have a small retail store in Riggins with t-shirts and most rafting gear you may need, this can be purchased last minute or pre purchased over the phone.
